Not to abuse our fair use policy.

Fair Use Policy

Where account's resources are shared including but not limited to DirectAdmin hosting, Plesk hosting, Game hosting, operate under a fair use policy.

Any services we run can have a fair use policy, abuses will be discussed with the client.

Where resources limits are not specified or are listed as unlimited within the account specification then fair use will apply.

Fair use means that any customer can use as much resources as are available as the long as that usage does not adversely affect the performance of other customers hosted upon the same server.

We reserve the right to determine whenever a customer is consuming too many resources, while this case is extremely rare. In those cases, we will provide our customer multiple solutions by asking the customer to reduce his usage by applying some modifications of his applications also in the case of malware or by upgrading the customer to a non-shared plan such as a VPS or a Dedicated server, in this case, additional charges could be applied.

We limit CPU Usage as well as Memory usage on shared hosting, while we keep a significant margin for our customers, we don't allow to constantly hit the limits. In those cases, we will provide our customer multiple solutions by asking the customer to reduce his usage by applying some modifications of his applications also in the case of malware or by upgrading the customer to a bigger or non-shared plan such as a VPS or a Dedicated server, in this case, additional charges could be applied.

If the customer impacts too many peoples at the same time we reserve us the right to temporarily suspend his services until the issue is resolved. If the customer doesn't take any remedial options, then

the service could be disabled permanently.

In case some scripts pose some security risk by our judgment, or it affects the server or network performance too much we reserve the right to turn the script off.

Poli Systems will never try to be blocking to customers' services and will apply the best possible solutions in the case of an abuse of the fair use policy.
